- Early learning programs
- Public K-12 school records

Oregon Youth Authority

- Close custody
- Parole/community placement

Oregon Health Authority

- Birth records
- Medicaid/CHIP enrollment and claims
- Home visiting

Advisory Structure

OCID is guided by a 3-part advisory structure.

The *Governance Committee's* mission:

Guide the development of a credible and sustainable data resource that minimizes bias in data, is equitable in access and application, and enables focused impacts for Oregon.

Governance Committee members include Oregon legislators from both chambers and both parties, a representative from the Governor's Children's Cabinet, and directors of state agencies contributing data to OCID or their designees.

The *State Analyst Forum* brings state policy and program leaders and analysts together to collaborate on state data efforts, and share experience and expertise. The participants represent:

- State agency data partners
- Chief Data Officer
- State Longitudinal Data System
- Budget and Management
- Legislative Fiscal
- Legislative Policy and Research

OCID's *Community Forum* is under development in 2022. The aim of the community forum is to engage community members and build an understanding of how data-to-policy efforts such as OCID can effectively incorporate and reflect community voice.

The Center for Evidence-based Policy leads the project:

- Providing leadership, scientific direction, facilitation, and administrative support.
- Producing publicly available analyses, interactive displays, and dashboards.
- Managing data, analytics, modeling, and quality assurance.
- Maintaining and hosting the [OCID website](#).

Funding

The Oregon Legislature appropriated \$2 million to continue the OCID project for the 2021-2023 biennium.

OCID is led by the Center for Evidence-based Policy at Oregon Health & Science University. The Center helps federal, state and local policymakers shape better decisions by providing them with objective, rigorously analyzed information.
